Now the best has just got better! We have a large panel of insurers to make sure you get the right insurance at the right price, which now includes not one, but two exclusive insurance schemes for Unipart Car Care Centres – all designed with a range of benefits to meet the needs of garages throughout the UK.

### LOOK WHAT YOU GET AS STANDARD FROM UNIPART CAR CARE CENTRE INSURANCE:

- **A personal service, from a local account manager.** Our team of account managers covers the whole of the UK, and we can discuss with you exactly what you need – so you don't pay too much for insurance that you don't want, or too little and miss out on insurance that you really do need.
- **Motor trade experts.** Bollington Insurance has been around for over 40 years, insuring vehicles and businesses since 1973. Now acknowledged as one of the UK's leading motor trade insurance brokers, they have the knowledge and experience to get you the best deal on your insurance, and provide support from a friendly team dedicated to serving you.
- **Multiple insurance providers.** No matter what your circumstances, the large panel of insurance companies at our disposal allow us to offer the widest possible range of products to you. With exclusive insurance schemes from leading providers including LV= and Ageas, and a host of other quality insurers to meet your needs, you're in safe hands.
- **Claims hotline.** Available 24 hours a day, each and every day of the year, to report claims and handle your claims management. Specialist teams deal with insurance relating to your motors and insurance for your business premises, stock and tools. We deal with claims on your behalf, making sure you are kept informed of progress, and aim for quick settlement in all cases.
- **A full range of covers, all together.** Bring all your business insurance arrangements together with one renewal date – including employers' liability, public and products liability, business interruption, directors' and officers' insurance, wrongful conversion cover, and anything else you need.
- **Risk management advice.** We offer tailored advice that's specific to your business, including on-site visits from an expert Risk Manager. Good risk management can help to reduce your insurance premium and ensure that your claims are kept to a minimum – and our cost-effective solution has already proved to be popular with a number of garages.
